

Display for mobility applications

## LED DSAplus

The dynamic text indicator (LED DSAplus) with integrated acoustic module has been specially developed for use at unoccupied small and medium-sized railway stations. The fully graphic-capable indicator displays the text using a white power LED and guarantees very good legibility, even in full sunlight, and a reading range of up to 40 metres. The device is available in three versions, so that there are different mounting options depending on the location.

### HIGHLIGHTS

- » Text display: fixed, flashing or scrolling text
- » Playback of electronic and direct voice announcements possible
- » Separate brightness control for double-sided displays
- » LED viewing surface made of laminated safety glass, anti-reflective thanks to internal contrast film
- » Self-diagnosis system in the event of faults (automatic cold start)

## TECHNICAL DATA

### GENERAL DESCRIPTION

<b>Exact designation</b>	Type 1 – LED DSAPLUS single-sided – Standard / Premium Type 2 – LED DSAPLUS double-sided – Standard / Premium Type 3 – LED DSAPLUS Master-Slave – Standard / Premium Standard: resolution 158 x 20 px Premium: resolution 224 x 46 px all types fully graphics-capable with integrated acoustic module
<b>Area of application</b>	outdoor and indoor, also with direct sunlight

### LED-PANEL

<b>LED area</b>	Power LED (SMT), very good readability even in full sunlight			
	<b>LED size [mm]</b>	<b>Resolution [px]</b>	<b>Module size [px]</b>	<b>Grid dimension [mm]</b>
<b>Standard (Type 1; 2; 3)</b>	886,1 x 145,9	158 x 20	79 x 20	5,625 x 7,50
<b>Premium (Type 1; 2; 3)</b>	883,85 x 204,1	224 x 46	112 x 46	3,95 x 4,46
<b>Background colour</b>	black			
<b>Viewing angle</b>	> 120°			
	<b>Max. brightness [cd/m<sup>2</sup>]</b>		<b>Typ. brightness [cd/m<sup>2</sup>]</b>	
<b>Standard (Type 1; 2; 3)</b>	2.950		1.000	
<b>Premium (Type 1; 2; 3)</b>	5.750		1.900	
<b>Brightness control</b>	Automatic adjustment to ambient brightness			
<b>LED control</b>	Multiplex			
<b>LED monitoring</b>	Individual LED monitoring with transfer of fault classes or exact number of defective LEDs to higher-level AVMS (computer-aided operation control system)			

## HOUSING

Front glass	anti-reflective laminated safety glass with a thickness of 7.14 mm, with anti-reflective contrast film on the inside
Housing material	Aluminium
Surface	Powder coating, RAL 5022 (midnight blue, matt)

## DIMENSIONS / WEIGHT

	Dimension (W x H x D) [mm]	Weight (without trim strip) [kg]
Type 1 – LED DSAPLus single-sided – Standard	1.010 x 280 x 180	16,7
Type 2 – LED DSAPLus double-sided – Standard		22,0
Type 3 – LED DSAPLus Master-Slave – Standard		16,8 Master / 12,2 Slave
Type 1 – LED DSAPLus single-sided – Premium		17,5
Type 2 – LED DSAPLus double-sided – Premium		23,5
Type 3 – LED DSAPLus Master-Slave – Premium		17,7 Master / 13,2 Slave

## POWER SUPPLY

Power supply	230 V / 50 Hz	
	Normal operation, without PoE	Test operation, all LEDs at maximum brightness, acoustic amplifier full load, PoE in operation
Type 1 – LED DSAplus single-sided – Standard	P = < 32 W	P = < 144 W
Type 2 – LED DSAplus double-sided – Standard	P = < 40W	P = < 202 W
Type 3 – LED DSAplus Master-Slave – Standard	P = < 42W	P = < 204 W
Type 1 – LED DSAplus single-sided – Premium	P = < 42 W	P = < 221 W
Type 2 – LED DSAplus double-sided – Premium	P = < 50 W	P = < 368 W
Type 3 – LED DSAplus Master-Slave – Premium	P = < 52 W	P = < 370 W

## GENERAL TECHNICAL PROPERTIES

Temperature range operation	-30° C to +45° C
Temperature range storage	-30° C to +60° C
Protection class / electrical protection class	IP65 / Protection Class 2
Approvals	CE (EMC and electrical safety)
Data supply	LTE GSM modem with two external antennas (MiMo)
Photobiological safety	risk group 0 (free group, no photobiological hazard)
Acoustic module	<p>20 W amplifier with 2 100 V LF outputs</p> <p>Measuring microphone</p> <p>Floating contact for switching on external devices</p> <p>Frequency range: 200 Hz to 15 kHz</p> <p>The railway-approved type DPD-10 loudspeaker is recommended</p>
